

Wet Macular Degeneration
Pars Planitis
Blepharospasm
Conjunctival mass lesion
Marginal Keratitis
Conjunctival cyst
Retinal Mass Lesion, vascularized
Convergence Insufficiency
Retinal Hole / Retinal Tear
Episcleritis
Central Serous Chorio-retinopathy
Low Vision Workup
Corneal ulcer
Choroidal nevus vs. malignant melanoma
Corneal Foreign Body
Vitreous Hemorrhage
endophthalmitis
old retinal detachment repair
asteroid hyalosis, vitrectomy consideration
ruptured limbal sutures
ectopic pupil secondary to peripheral anterior synchia
Chalazion
Orbital Pain
Thygeson's Keratitis
Blepharochalasis
Iris melanoma
Herpes Simplex Keratitis
Amblyopia
Bell's Palsy
Basal Cell Carcinoma
Hollenhorst plaque, emboli lodged in retinal arteriole
Calcific Band Keratopathy
Disciform Keratitis
Proptosis, unilateral or bilateral
Conjunctival Vascular Lesion
Contact Lens Fitting for Anisometropia
Phthisis
Hordeolum
Orientation & Mobility Training:
Macular Dystrophies
Limbal Dermoid
Keratitis, secondary to contact lens overwear
Isolated cotton wool spots
Retinitis Pigmentosa
High Myopia, CL intolerance: Intra-ocular Contact Lens
Elevated Sub Retinal Mass Lesion
Epi-retinal Membrane

1

Visual Therapy for a General Binocular Dysfunction
plaquenil macular toxicity
hypertensive retinopathy
systemic assessment / treatment for high cholesterol
speciality contact lens fit for congenital aniridia
work up for chronic progressive external ophthalmoplegia
treatment for an inflamed pterygium / pinguecla
dry eye syndrome / punctate keratitis
trichiasis
Graves Ophthalmopathy
uni/bilateral retinal microaneurysms w/o known cause
recurrent sub-conjunctival hemorrhage/systemic evaluation
suspicious lid lesion, cancer?
un-explained visual field loss, systemic work up needed
recent constant headache w or w/o neurological company
work up for un-explained vision loss

United States	17	2	11	15	21		15												
Mexico						38													

Screening Number	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	Total thru June 2020
Screening Location																			
Pathology, type of	CALIFORNIA LIONS FRIEND IN SIGHT, PATHOLOGY PROFILE FOR FYE JUNE 2020																		
Cataracts																			
Glaucoma & or suspect																			
Pterygium																			
Laser Peripheral Iridotomies(narrow angles)																			
Strabismus / Amblyopia (visual therapy & or surgery)																			
Dry Macular Degeneration, life style advice																			
6 month follow up on background diabetic retinopathy																			
Na Yag capsulotomy for a secondary cataract																			
SX / Medical Tx for proliferative diabetic retinopathy																			
Retinal Detachment																			
Amaurosis fugax																			
SX / Medical Treatment for diabetic maculopathy																			
Laser treatment for proliferative retinopathy (sickle cell)																			
Dilated Fundus Examination for flashes & floaters																			
Treatment for Neovascular Glaucoma/ Diabetes																			
Excision of a sebaceous cyst																			
Work up for recent onset of diplopia / strabismus																			
Treatment for a corneal abrasion																			
Optic Neuritis																			
Bacterial Conjunctivitis																			
Allergic Conjunctivitis																			
Seborrehic or Staph. Blepharitis																			
Work up for optic disc pallor																			
3 month follow up on diabetic retinopathy																			

Ptosis surgery
Dilated Fundus Examination for high myopia
HGP Contact Lens fit for irregular cornea / keratoconus
Ectropion Surgery
Macular Hole
Keratoplasty secondary to corneal scar / decompensation
Visual field loss
Pupillary defect
Intermittent diplopia
Optic Atrophy
Unilateral Aphakia
Anterior Uveitis
Transient bilateral loss of complete visual field
Lacrimal dilation/probing/irrigation
Prosthetic shell
Bilateral optic disc edema / incipient congestion
Optic disc shunt vessels
Branch Retinal Venous Occlusion
Central Retinal Venous Occlusion
Wet Macular Degeneration
Pars Planitis
Blepharospasm
Conjunctival mass lesion
Marginal Keratitis
Conjunctival cyst
Retinal Mass Lesion, vascularized
Convergence Insufficiency
Retinal Hole / Retinal Tear
Episcleritis
Central Serous Chorio-retinopathy
Low Vision Workup
Corneal ulcer
Choroidal nevus vs. malignant melanoma
Corneal Foreign Body
Vitreous Hemorrhage
endophthalmitis
old retinal detachment repair
asteroid hyalosis, vitrectomy consideration
ruptured limbal sutures
ectopic pupil secondary to peripheral anterior synchia
Chalazion
Orbital Pain
Thygeson's Keratitis
Blepharochalasis
Iris melanoma
Herpes Simplex Keratitis
Amblyopia
