

Screening Number	1	2	3	4	5	6	7	8	9										Total thru Dec 2026
Screening Location	Pasadena																		
Pathology, type of	CALIFORNIA LIONS FRIEND IN SIGHT, PATHOLOGY PROFILE FOR FYE JUNE 2027																		
Cataracts	2																		
Glaucoma & or suspect	2																		
Pterygium																			
Laser Peripheral Iridotomies(narrow angles)																			
Strabismus / Amblyopia (visual therapy & or surgery)																			
Dry Macular Degeneration, life style advice																			
6 month follow up on background diabetic retinopathy																			
Na Yag capsulotomy for a secondary cataract																			
SX / Medical Tx for proliferative diabetic retinopathy																			
Retinal Detachment																			
Amaurosis fugax																			
SX / Medical Treatment for diabetic maculopathy																			
Laser treatment for proliferative retinopathy (sickle cell)																			
Dilated Fundus Examination for flashes & floaters																			
Treatment for Neovascular Glaucoma/ Diabetes																			
Excision of a sebaceous/sudoriferous cyst																			
Work up for recent onset of diplopia / strabismus																			
Treatment for a corneal abrasion																			
Optic Neuritis																			
Bacterial Conjunctivitis																			
Allergic Conjunctivitis																			
Seborrheic or Staph. Blepharitis																			
Work up for optic disc pallor																			
3 month follow up on diabetic retinopathy																			
Ptosis surgery																			
Dilated Fundus Examination for high myopia																			
HGP Contact Lens fit for irregular cornea / keratoconus	1																		
Ectropion Surgery																			
Macular Hole																			
Penetrating Keratoplasty secondary to corneal scar																			
Visual field loss																			
Pupillary defect																			
Intermittent diplopia																			
Optic Atrophy																			
Unilateral Aphakia																			
Anterior Uveitis																			
Transient bilateral loss of complete visual field																			
Lacrimal dilation/probing/irrigation																			
Prosthetic shell																			
Bilateral optic disc edema / incipient congestion																			
Optic disc shunt vessels																			
Branch Retinal Venous Occlusion																			
Central Retinal Venous Occlusion																			
Wet Macular Degeneration																			
Pars Planitis																			
Blepharospasm																			
Conjunctival mass lesion																			
Marginal Keratitis																			
Conjunctival cyst																			
Retinal Mass Lesion, vascularized																			
Convergence Insufficiency																			
Retinal Hole / Retinal Tear																			
Episcleritis																			
Central Serous Chorio-retinopathy																			
Low Vision Workup																			
Corneal ulcer																			

Choroidal nevus vs. malignant melanoma																		
Corneal Foreign Body																		
Vitreous Hemorrhage																		
endophthalmitis																		
old retinal detachment repair																		
asteroid hyalosis, vitrectomy consideration																		
ruptured limbal sutures																		
ectopic pupil secondary to peripheral anterior synchia																		
Chalazion																		
Orbital Pain																		
Thygeson's Keratitis																		
Blepharochalasis																		
Iris melanoma																		
Herpes Simplex Keratitis																		
Amblyopia																		
Bell's Palsy																		
Basal Cell Carcinoma																		
Hollenhorst plaque, emboli lodged in retinal arteriole																		
Calcific Band Keratopathy																		
Disciform Keratitis																		
Proptosis, unilateral or bilateral																		
Conjunctival Vascular Lesion																		
Contact Lens Fitting for Anisometropia																		
Phthisis																		
Hordeolum																		
Orientation & Mobility Training:																		
Macular Dystrophies																		
Limbal Dermoid																		
Keratitis, secondary to contact lens overwear																		
Isolated cotton wool spots																		
Retinitis Pigmentosa																		
High Myopia, CL intolerance: Intra-ocular Contact Lens																		
Elevated Sub Retinal Mass Lesion																		
Epi-retinal Membrane																		
Visual Therapy for a General Binocular Dysfunction																		
plaquenil macular toxicity																		
hypertensive retinopathy																		
systemic assessment / treatment for high cholesterol																		
speciality contact lens fit for congenital aniridia																		
work up for chronic progressive external ophthalmoplegia																		
treatment for an inflamed pterygium / pinguecla																		
dry eye syndrome / punctate keratitis																		
trichiasis																		
Graves Ophthalmopathy																		
uni/bilateral retinal microaneurysms w/o known cause																		
recurrent sub-conjunctival hemorrhage/systemic evaluation																		
suspicious lid lesion, cancer?																		
un-explained visual field loss, systemic work up needed																		
recent constant headache w or w/o neurological company																		
work up for un-explained vision loss																		
work up for hemi-facial spasm																		
severe non-proliferative diabetic retinopathy																		
xanthelasma																		
myopia control																		
hyphema																		
Entropion Surgery																		
United States	5																	
Mexico
